Smoke Alarms

Under the *Fire and Rescue Service Act 1990*, administered by Queensland Fire and Rescue Service, both tenants and lessors have responsibilities for smoke alarms in their rental properties.

- Tenants:** Have obligations for cleaning, testing and replacing batteries for alarms during a tenancy.
- Lessors:** Have obligations for installing, cleaning and testing smoke alarms and replacing batteries before the start or renewal of a tenancy.
- (see easy reference table overleaf for specific details)*

The *Residential Tenancies and Rooming Accommodation Act 2008* allows entry to the rental premises by the lessor to install and maintain smoke alarms. These amendments fall under entry provisions (s192 of the *Residential Tenancies and Rooming Accommodation Act 2008*) allowing lessors to give a 24 hour *Entry Notice* (Form 9) for the purposes of entry to comply with the *Fire and Rescue Service Act 1990* in relation to smoke alarms.

Quick Tips

- It is good practice for the lessor to give their tenants the manufacturer's instructions on how to clean, test and replace batteries for smoke alarms.
- A smoke alarm is required to emit a warning signal before the battery fails, usually a chirping sound.
- Changing batteries in smoke alarms on an anniversary such as a birthday will act as a reminder to change them once a year.
- Cleaning a smoke alarm usually involves an external clean to remove dust and debris with a broom or a vacuum cleaner.
- Smoke alarms are required to have a minimum service life of at least 10 years.

A lessor must not pass on their obligations to the tenant to act on their behalf such as asking the tenant to replace batteries at the beginning of the tenancy.
