

Smoke Alarm Procedure

Tenant:

Address:

.

Smoke alarms are installed in the premises for your safety and as stated in the QLD Government Legislation must be fitted in all homes and units. The following applies to all smoke alarms.

- Smoke alarms which are installed within the premises must be kept working at all times.
- It is the tenants responsibility to maintain the smoke alarms during the tenancy, including changing of batteries and keeping dust free and clean.
- If a problem occurs with the smoke alarms you must notify the Agent immediately.
- Smoke alarms are not to be removed or replaced from the rental premises.

I/We the tenant/s understand the smoke alarm policy.
